850 L

Trade in the TV, video games and other distractions of the living room and enjoy the outdoors with your family every season of the year. Melt away muscle tension with a powerful massage provided by the personal lounge. With lounge seating and five different massage configurations, this spa is perfect for a family looking for a retreat without traveling farther than the backyard.

Specifications

Jets 50

Pump 1	6 bhp 2 spd
Pump 2	6 bhp 1 spd

• BHP (Brake Horsepower) is a maximum value measured by the motor manufacturer with no pump installed. • Dry weight is shipping weight, including package and wooden runners. • Dimensions, capacities and weights are approximate. Specifications are subject to change without notice. • Spa images have been digitally rendered and may or may not show optional features.

STANDARD FEATURES

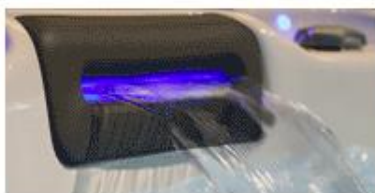

DynaStar LED Lighting

The addition of a beautiful LED lighting system to your spa illuminates the texture and detail of the spa's interior.

Ergonomic Design

Comfortable, ergonomic seats are at varied depths to accommodate different spa users.

LED Pillowfall

Let the warm water flow over your neck and shoulders for the ultimate in relaxation.

Powerful 5" Jets

Ground-breaking jets deliver deep muscle penetration for an effective massage. The unique dual jet design delivers an active massage even through static jets.

Neck Jets

Soothe your neck and shoulder pain with the South Seas's neck jets.

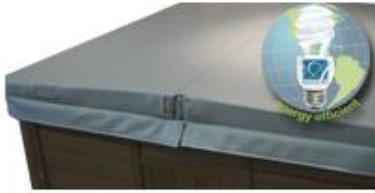

Construction & Plumbing

The South Seas's leak-resistant plumbing is comprised of special high-quality flexpipe and hoses.

Kingwood Cabinets
Synthetic cabinets weigh less than wood, yet are more resilient and durable.

Standard Spa Cover
The ASTM Deluxe safety cover adds insulation value and protects your spa.

ArcticPac Insulation with ABS Bottom
This double-layered insulation system features a reflective bubble-foil lining, a coat of Icynene™ foam, and a rigid ABS base for ultimate protection.

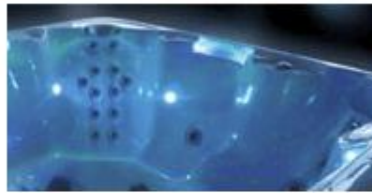

Warranty
The standard warranty comes standard with lifetime for structure, three years for surface, three years for electrical and plumbing, one year for cabinet.

UPGRADES

Ozonator
The Ozonator provides an additional water treatment that requires fewer harsh chemicals and purifies water faster than chlorine.

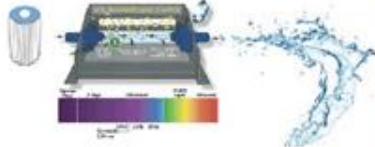

TopRail LED Lighting
The system includes lighting the top of the spa with small LED lights.

Stereo Systems
Bluetooth Music Experience or the Aux Input Media Locker add a perfect addition to complete your luxurious retreat.

Full Foam Energy Efficient Package*
Provides the most efficient heat retention rating available in any spa, and dramatically increases the spa's lifespan.

AOP™ Water Purifier
Advanced Oxidation Process (AOP) combines UV Sterilization with Ozone to create purification for clean and clear spa water.

Rock Cabinets
Our optional synthetic Rock spa cabinets are lighter in weight than wood and also more resilient and durable.

*Required for spas in state of CA & CT
